9. now
10. brow
11. beauties
12. skies
13. started
14. mean
15. cow

Hello Parents!

We had an exciting time this week as we went on our field trip to the planetarium, and had our lemonade sale! We had a really fun time this week making lemonade. The students did an awesome job squeezing several kilos of limes. They also did a great job helping make and taste test the lemonade for today's sale. Please forward me any good pictures you took at today's sale. ☺

Thank you so much for all of your support during our "Lemonade for Sale" project. We had a phenomenal turn out, raising 2,270 baht today! I am excited that we will be able to donate this money to "Construction of Hope" and they will in turn be able to provide money for food, clothing, and educational opportunities for the children of construction workers in Bangkok and Cambodia.

In math we finished our unit on data analysis, and next week we will start learning about time. Next week we will focus on time to the hour, half-hour, and quarter-hour. In science we will be looking at what energy is, where it comes from, and how a circuit works.

In socials studies this week we looked at a lot of cool animals from Australia, and we also looked at some of the resources and goods that they have there. Next week we will be looking at some cities and landmarks in Australia. We will also be learning about a famous person from Australia, and the difference he made in the outback.

Have a great weekend!

~Miss Christina
